

The HuRis Illness Manager

A powerful  SuccessFactors Extension

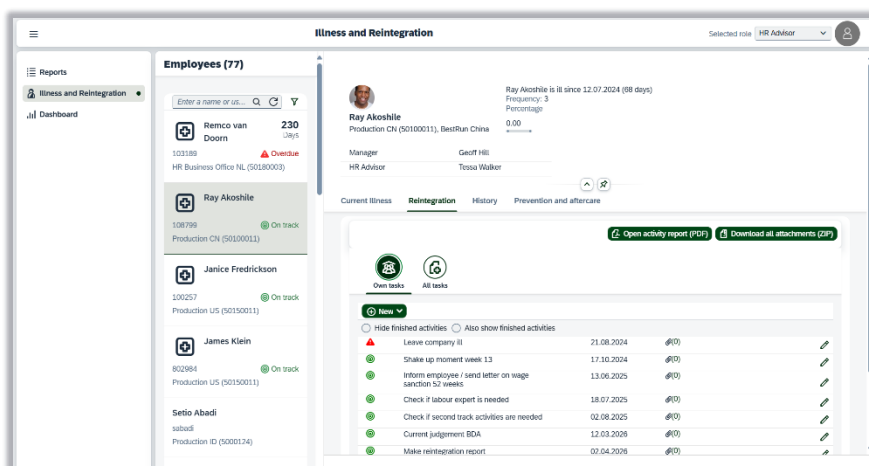

Optimize your absenteeism management and streamline reintegration processes with the HuRis Illness Manager for SAP SuccessFactors. Our solution empowers your organization to efficiently manage reintegration activities and compliance with legal requirements.

The Illness Manager is seamlessly integrated with SAP SuccessFactors enabling you to use real-time employee data. From tracking absences to supporting a smooth return to work, the HuRis Illness Manager enhances efficiency, reduces administrative burden, and ensures a consistent, compliant approach to employee reintegration, all within one centralized platform.

Full Overview

Gain complete visibility into your absenteeism management and reintegration efforts with the HuRis Illness Manager's centralized dashboard. This powerful tool provides a comprehensive overview of all active illness cases, reintegration activities, and tasks requiring attention, ensuring that every step in the process is managed efficiently.

With real-time updates on employee absences and reintegration progress, managers can easily monitor the status of each case and take timely action on tasks. The dashboard also offers broader key insights into essential metrics, such as absenteeism rates, reintegration progress, and trends over time, allowing for proactive decision-making and long-term planning.
